Expand · Scale

One person. End to end.

A 22-year-old solo founder plans, designs, builds, and ships in-house. 11 apps are not the end — they are the start of one Newon ecosystem.

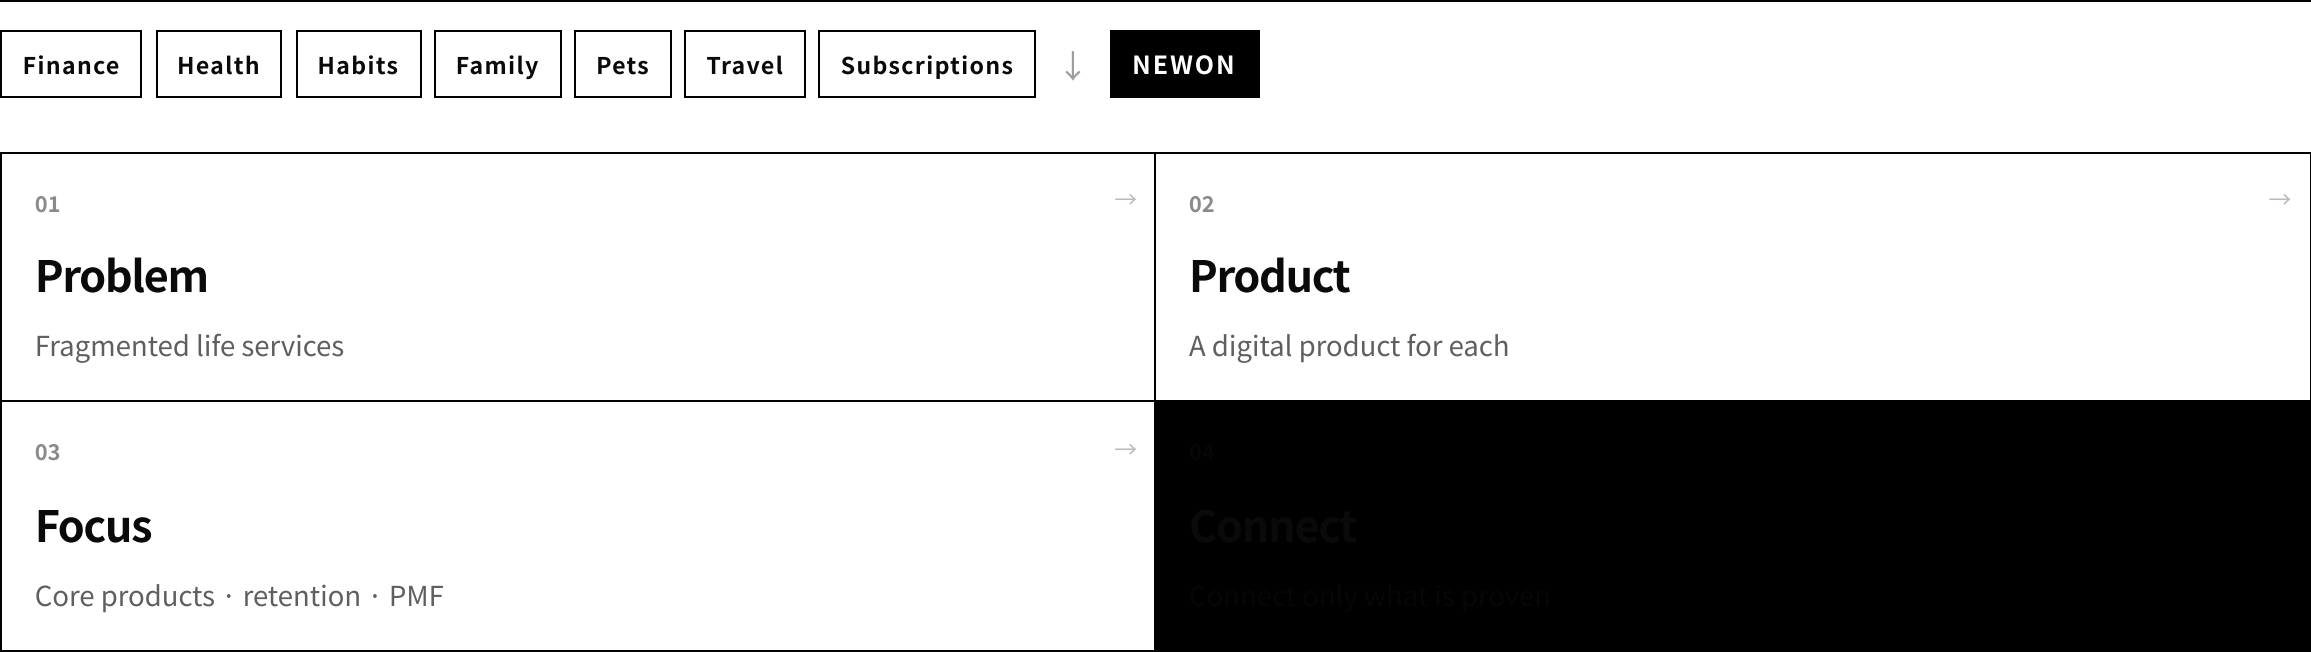

22 SOLO FOUNDER	6M BUILD TIME
11 APPS	01 WEB

Build wide. Validate fast. Focus deep. Connect what works.

Separate apps into one Newon ecosystem. Next is focus.

Life is connected. The services we use are not.

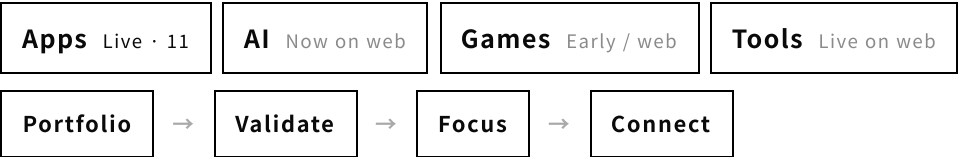

Newon finds repeating problems in daily life, solves them with digital products, then validates and connects what works.

Portfolio

Arranged along the axes of daily life.

11 digital products + NEWON WEB

Separate apps into one Newon ecosystem. Next is focus.

00 Core NEWON 11 digital products → one brand → Newon+ hub		01 Daily OX MONTH  OX MONTH	02 Finance SubPing · Savy · PiggyUp  SubPing  Savy  PiggyUp
03 Health Pillmate  Pillmate	04 Family BabyLog · PetLog  BabyLog  PetLog	05 Challenge GoalUp · CountUp  GoalUp  CountUp	06 Travel · Hub My World · Newon+  My World  Newon+

Beyond 11 apps.

The five axes are not equal. Products are the core. Web / Newon+ is infrastructure.

AI layer

From finance and health to automation and commerce.

Current features and next steps are separate. This is not a plan to do everything at once.

 SUBPING CURRENT Subscription tracking NEXT Auto add → payment detection → automation → shared plans → family/friends	 SAVY CURRENT AI ledger NEXT Auto import → auto classify → AI analysis → budget tips → savings automation
 PILLMATE CURRENT Dose · alerts · stock · family PLANNED Personalized recs → supplement shopping / commerce	

The next step for family, challenges, and travel.

Community, commerce, and booking are Phase 04 expansion. The path is open. It is not live yet.

 BABYLOG CURRENT Logs · AI · family share PLANNED Community → shopping → used goods → booking	 PETLOG CURRENT Logs · AI · family share PLANNED Community → shopping → used goods → clinic/grooming/service booking
 GOALUP CURRENT Goals NEXT Challenges	 COUNTUP CURRENT Streaks NEXT Challenges / ranking / rewards
 PIGGYUP CURRENT Saving NEXT Savings challenges / community / rewards	 MY WORLD CURRENT Trip logs · plans PLANNED AI → community → stays → flights → tours → packages → travel goods → booking

One account. Many products.

One Newon experience. Connect proven products to deepen relationship and retention per user.

NEWON COMMERCE

STORE · MARKETPLACE · BOOKING

We do not build all of this now. After core-product validation, we connect it in Phase 04 expansion.

01 NEWON STORE B2C COMMERCE. Newon/brand → sells goods to users. Pillmate → supplements BabyLog → baby goods PetLog → pet goods My World → travel goods PRODUCT → STORE → PURCHASE	02 NEWON MARKET C2C / P2P MARKETPLACE. User ↔ user used-goods and trade matching. BabyLog → used baby goods PetLog → used pet goods Later vertical markets COMMUNITY → MARKET → TRANSACTION	03 NEWON BOOKING SERVICE BOOKING. User → clinic / grooming / family services / stays / tours. PetLog → clinic / grooming BabyLog → family services My World → stays / tours / travel DISCOVER → COMPARE → BOOK → MANAGE
--	--	--

The axis that solves problems.

The axis that builds brands.

Business Build / automate / solve Product build, workflow automation, research, and digital solutions for companies and founders. Not outsourcing — a way to earn revenue, customers, market data, and technical depth. Build Automation Research Solutions	Studio Creative / brand engine A creative engine for Newon’s own brands and for others. Not a UI freelance page. Brand — identity · strategy · naming · logo Digital — web · app · landing · product Content — social · campaigns · visual IP — characters · stickers · experimental IP
--	--

01 Products	02 Users / data / insight	03 Business + studio	04 Revenue / customer problems	05 New product insight	06 Products
-----------------------------------	---	--	--	--	-----------------------------------

Revenue structure.

Subscription → Commerce → SaaS / B2B → Platform

The structure can expand Subscription → Commerce → SaaS/B2B → Platform. We separate having a model from having revenue.

Current model	Early model	Planned scale
App subscriptions	Studio / B2B	Scale layer
Monthly/yearly per app. A live store revenue model.	Build · automation · research · solutions · studio. Public service offers on the web. No revenue figures.	Membership · commerce · marketplace · booking · partnerships

CURRENT MODEL	App subscriptions	Monthly/yearly per app · live structure
EARLY MODEL	Studio / B2B	Build · automation · research · solutions · studio
EARLY / WEB	Digital store	Templates · guides · digital goods
PLANNED SCALE	NEWON+ membership	Bundled membership / packages
PLANNED SCALE	Commerce / market / booking	Pillmate · BabyLog · PetLog · My World
PLANNED SCALE	Partnerships	Brand challenges · distribution

Shipping many apps is not the moat.

What we can claim is speed and structure. Network effects, data moats, and market dominance are not included.

Core	Infrastructure	Early	Experiments	Later
Products	WEB + NEWON+	Business + studio	Resources	Commerce / market / booking

Fast product execution	Multi-product structure	Founder-led product development	Shared infrastructure
Cross-product expansion path	Web distribution	B2C + B2B feedback loop	

13 languages. Released in 177 countries.

Built in Korea. Released and distributed to 177 countries via App Store / Google Play.
177 is countries available, not users.

INVESTMENT & PARTNERSHIP

Open to Investment & Strategic Partnerships

Let's Build the Next Newon

FOCUS. VALIDATE. CONNECT.

This is not a round to scale all 11 services at once. It is to choose core products, validate users, retention, and profitability, and build a Newon+ connection layer for one ecosystem.

Use of Funds · Growth Plan

Product Deepen existing apps and expand the Newon ecosystem	Growth Acquire users and grow brand / marketing	Commerce Commerce expansion for BabyLog, PetLog, Pillmate, and more	SaaS & B2B Expand SaaS, automation, and enterprise solutions	Global Acquire global users and expand overseas markets
---	---	---	--	---

Where growth goes.

We do not buy the whole vision at once. Focus follows Product · Growth · Commerce · SaaS / B2B · Global.

Product Focus / connect	Deepen existing apps and expand the Newon ecosystem
Growth Validate / acquire	Acquire users and grow brand / marketing
Commerce Controlled expansion	Commerce expansion for BabyLog, PetLog, Pillmate, and more
SaaS & B2B Enterprise / automation	Expand SaaS, automation, and enterprise solutions
Global Korea → Global	Acquire global users and expand overseas markets

Focus. Validate. Connect. · Korea → Global

Today 11 apps + web + studio	Focus Prove what works	Connect Web NEWON+ AI	Expand Commerce market booking	Scale Global platform
--	--	---	--	---

NEWON · product & venture studio · building a connected lifestyle ecosystem.

We are looking for

Connect.

Not capital only. A network that accelerates focus → validate → connect together.

- Capital
- Partners
- Distribution
- Brand
- Global network

Investment & Partnership

01 Investors Open to follow-up meetings	02 Partners Connect products and channels
03 Brand Challenges and collabs	04 Commerce Later vertical expansion
05 Distribution Stores and distribution	06 Global network Released in 177 countries

Investment & Partnership

From 11 apps + web into one ecosystem.
